CMRA - MOTOAMERICA RACER

# MAURICE <sup>#972</sup> DONGAR

## MY MISSION

My main goals for the 2020 Race Season are to improve my overall riding skills to become a better and faster rider. My objective is to compete in all of the CMRA races for 2020, train with Ty Howard, of Typhoon Powersports, by doing private track days to hone in on areas that need improvement and if possible, attend a camp with Josh Hayes at his ranch in California.

I purchased a 2017 Kawasaki ZX10R motorcycle at the end of 2019. After the season finished for the year, I took it to Jimmy Cambora, of Raceworx, to work his magic in getting it prepared for the 2020 season. I am sure that with his help we are going to be very competitive from the beginning of the season and a force to be reckoned with. The objective for 2020 is to move to the Expert Class and finish in the top 10. I know that it is a high goal to aspire to but I am confident that I have the right combination of skills and determination to achieve that goal. I have been consistently improving my lap times but I will need my sponsors to help with the financial and logistical burdens to be able to remain competitive. All of the sponsors who choose to help me in my journey will get maximum exposure through multiple different avenues.

2019 CMRA Race Season is now over. I finished in 4th place in Superstock A Novice, 4th in Formula 1 Novice, and 5th in Superbike A Novice. I didn't get to do every race this season but I improved my personal best each time I went out.

All things considered, I am very happy with what I accomplished for my first season.

# SPECIAL THANKS TO MY SPONSORS

I really wouldn't be here if it wasn't for your support and generosity. I can't thank you enough!
